

1 MINIMAL DESCRIPTION OF THE MESSAGE IN THE MOVIE:  
2 A time traveling U.S. Soldier is the "constant" in the  
3 story of how America warriors are the Peace Keepers  
4 of the PRESENT, how their unselfish sacrifices of the  
5 PAST have set the stage for America's present peace  
6 and prosperity, and how their FUTURE actions might  
7 give hope to the concept of Personal Choice for the  
8 entire world society.

11 TWO HOURS OF PATRIOTIC MUSIC

12 FADE  
13 IN:

14 An empty light blue color field. A military style  
15 drummer beats to a familiar rhythm. The drum beat gets  
16 louder and faster... A square box appears in the center  
17 of the screen. It's a freeze-frame of the action. It  
18 grows, coming toward us.

19 The box gathers speed towards us, the drumming goes  
20 softer and softer.

21 When the box reaches full size the drum beat STOPS.  
22 And the action starts.

23 INT. BARRACKS - NIGHT

24 SUPER: "Iraq, 2010"

25 Two soldiers are getting ready to bunk down. The first  
26 soldier, Time Traveler (T.T.), a lieutenant, speaks  
27 to the 2nd soldier, PRIVATE.

28 T.T.  
29 ...nothing like surviving  
30 the unexpected mess we had  
31 to deal with today. It is  
32 hard for me to appreciate  
33 that we are here to help the  
34 everyday citizen of Iraq  
35 have a better lifestyle.

36 PRIVATE  
37 We must have killed at least  
38 twenty-five of them and we  
39 only had three wounded.  
40 Those land mines drive me  
41 nuts, because there isn't  
42 anyone to shoot at.

As the weeks go by I keep asking myself... what are we accomplishing? We are not even keeping the ground we conquer each day since we come back to base each evening and it goes from a daylight battleground to just another suburban neighborhood at night. Tomorrow we have to retake it again.

PRIVATE

Yeah, it's like going hunting each day... but the animals in the forest shoot back. To me the bad guys don't even know why they are fighting. My guess is that all they know is -- if they don't try to kill us, their own superiors will kill them and their families.

T.T.

We are here to restore peace by killing off all the bad guys so the Bankers of the world who have their loans here get their money back.

(beat)

At the root of every war it is free food, free sex and free shelter that you and I end up protecting. One side owns it and the other side wants it.

PRIVATE

I thought we were here to kill the bad guys before they we able to attack the USA?

T.T.

That is exactly what we are doing. Killing the bad guys off on their turf instead of on ours...that's why we are here. If the bad guys succeed here they will find a way to terrorize US citizens in the USA.

(beat)

95 Would you like to hear what  
96 my history professor thinks  
97 is the cause of most all  
98 wars since the beginning of  
99 time?

100 PRIVATE

101 Not really, but I suspect I  
102 am going to hear it anyways.

103 T.T.

104 He claimed that these bad  
105 guys have a disturbed sex  
106 life. He claimed that their  
107 gaining power by any means  
108 is just their anxiety to  
109 have a "no cost" access to  
110 as many women as they desire  
111 without having to get  
112 emotionally involved.

113 PRIVATE

114 So why doesn't Washington  
115 just air-drop a few million  
116 inflatable sex dolls into  
117 the hostile territory and  
118 you and I can pack up for  
119 home?

120 Both laugh.

121 T.T.

122 Seriously... would you like  
123 to hear what two Muslims  
124 told me at the restaurant  
125 long before you even  
126 arrived on your tour of  
127 duty?

128 (beat)

129 I asked them the same  
130 questions you are asking  
131 me. They gave me simple  
132 straight answers. They said  
133 the cause of most all  
134 killing for the past  
135 centuries and the fractured  
136 society in the Mideast is  
137 caused by one group of  
138 Muslims wanting their  
139 succession of new Muslim  
140 leaders to be chosen by  
141 vote... and the other group  
142 wants it done by  
143 birthright.

144 (beat)

145 Remember when the medieval  
146 kings always handed down  
147 their throne to the oldest  
148 son. It is the same thing.  
149 The more educated Muslims  
150 want the "vote" and the more  
151 primitive ones want the  
152 "birth" thing.

153 (beat)

154 To non-Muslims like us...  
155 all we say is "so what!" Let  
156 them settle it amongst  
157 themselves! However, the  
158 spillover to us non-Muslims  
159 is that we need peace in the  
160 Middle East to guarantee  
161 the delivery of oil. It  
162 always comes down to money.

163 (beat)

164 This is my third tour with  
165 the Corps. I have gone from  
166 pure hatred of all these  
167 young guys we kill each week  
168 to where I now see them as  
169 victims of their own  
170 religious leaders or  
171 politicians.

172 (beat)

173 According to my two Muslim  
174 teachers there are many  
175 theories about how the  
176 Prophet Allah started the  
177 Islamic Empire. Legacy  
178 amongst the two Muslims at  
179 my table is that, centuries  
180 ago, 400 years before paper  
181 was invented, Allah had  
182 become a Military Leader  
183 and set up a system to have  
184 peace and prosperity in the  
185 entire Muslim Empire. They  
186 both agreed that their own  
187 individual tribe of people  
188 believe that the Prophet  
189 Allah started the Islamic  
190 Empire as a poor sheep  
191 herder. He started robbing  
192 food from the kings of those  
193 days and sharing one half of  
194 it with other poor  
195 peasants. In time he ended  
196 up with an army of well-fed  
197 peasants. His army captured  
198 most all of what is now  
199 called the Middle East. He

200 wanted to hold his  
201 far-flung empire together  
202 so he made a rule that  
203 everyone that wanted to  
204 live under his protection  
205 had to become a Muslim. This  
206 meant that everyone had a  
207 single civil law to cover  
208 each phase of everyday  
209 life. If you did not like  
210 the law you had to leave or  
211 be killed. He even had a law  
212 that in order to protect the  
213 outlying villages in the  
214 empire from rape, pillage  
215 and plunder -- the law is  
216 that every Muslim was to  
217 kill any "non-believer"  
218 entering into the empire to  
219 prevent them from diluting  
220 the unity between all  
221 Muslims. If any invader was  
222 captured he could join up as  
223 a Muslim then could stay in  
224 the empire.

226 In those days it was a good  
227 thing since it was designed  
228 to have one nation with one  
229 political system of  
230 governing wherein there was  
231 peace and prosperity. In  
232 America we have done the  
233 same thing with our "one  
234 nation, indivisible, with  
235 liberty and justice for  
236 all".

237 (beat)

238 All Allah wanted was a  
239 progressive and peaceful  
240 nation with one set of laws  
241 to protect everyone from  
242 outsiders and to settle  
243 disputes between neighbors  
244 without bloodshed. We in  
245 America call the same  
246 concept our Bill of Rights.  
247 My two Muslim tea drinkers  
248 made a big point that  
249 Allah's intent was that all  
250 Muslims have PERSONAL  
251 CHOICE under the Civil Law  
252 and not for Muslims to have  
253 a license to go around  
254 killing all non-Muslims

255 just because they had  
256 different religious  
257 rituals. They contended  
258 that Muslim  
259 fundamentalists want to  
260 sell the concept of "having  
261 a higher place in Heaven" to  
262 justify killing their  
263 non-Muslim neighbor and  
264 steal his property. It all  
265 comes down to money. One  
266 group has it and the other  
267 group wants it.

268 (beat)

269 Apparently, Allah had been  
270 dead for four hundred years  
271 before paper was invented.  
272 Then the politicians of  
273 four hundred years after  
274 Allah's death tried to  
275 write down Allah's rules of  
276 conduct in a book called the  
277 Koran. Millions of people  
278 became Muslims because it  
279 created a society that  
280 protected Muslims from  
281 outside invaders  
282 destroying the unity of the  
283 empire. It was a rule book  
284 for civil law amongst all  
285 Muslims. It worked to  
286 everyone's satisfaction  
287 for thousands of years.  
288 Then instead of the Koran  
289 being interpreted as a set  
290 of Rules to protect the  
291 Islamic Empire, the guys  
292 who were too lazy to get a  
293 job, twisted the meaning of  
294 the Rules from protecting  
295 the Islamic Empire to a  
296 license to attack others  
297 outside the boundary of the  
298 Empire. In order to justify  
299 their stealing their  
300 neighbor's property, they  
301 took the phrases in the  
302 Koran that rewards a higher  
303 place in Heaven to those  
304 Muslims who kill non  
305 Muslims... anywhere.

306 (beat)

307 The problem today is that  
308 the ancient rules were  
309 meant to protect all of

310 Islam from non-Muslim  
311 terrorists invading or even  
312 just walking through  
313 Islamic territory.  
314 However, if you read the  
315 words today it sounds like  
316 the Koran is giving  
317 permission to all Muslims  
318 to justify aggression on  
319 the part of Muslims to rise  
320 up and kill all non-Muslims  
321 in the world. The  
322 terrorists of today could  
323 care less about other  
324 Muslims or non-Muslims. All  
325 they want is free sex, food  
326 and shelter. They are no  
327 different than gang members  
328 operating in any city. The  
329 gang leaders are the ones we  
330 never see and shoot at. The  
331 ones we shoot at are the  
332 young unemployed innocent  
333 ones who will be killed by  
334 their own commandant if  
335 they don't try to kill us.

336 (beat)

337 Frequently, you hear...  
338 "May Allah go with you". In  
339 America we say "have a good  
340 one".

341 TAPS is starting in the background.

342 PRIVATE

343 Let's get some sleep.

344 T.T.

345 For whatever the reason I am  
346 wide awake. Wondering if  
347 guys like you and me have  
348 had this conversation going  
349 back to the Revolutionary  
350 War.

351 FEMALE SOLDIER (O.S.)

352 Will you two pussies shut up  
353 and go to sleep?

354 PRIVATE

355 Hey lady private! You are  
356 always bossing us  
357 defenseless males  
358 around...

359 (sarcastic)

360 ...and it hurts our  
361 feelings!

FEMALE SOLDIER

(Conciliatory  
tone)

365 Will you two lovers just  
366 shut up and go to sleep?

PRIVATE

367 OK... OK... hoo-rah!  
368

369 Both men bunk down. The scene FREEZES and the frame  
370 dwindles on the screen.

371 New MUSIC comes up -- music from the Revolutionary War  
372 period.

373 A new FREEZE FRAME comes toward us. As it grows, the  
374 music dwindles, but never fades completely. When the  
375 frame reaches full size, the action starts.

376 EXT. FIELD - NIGHT

377 SUPER: "Revolutionary War - 1775"

378 Many men dressed as Colonial soldiers warm themselves  
379 by small campfires.

380 T.T. is awakened by the background noise. Not sure  
381 where he is, he stands up to look around.

382 T.T. looks at his outfit. It is a Revolutionary  
383 Continental soldier's uniform. He is confused and  
384 can't figure if he is dreaming or not.

385 T.T. starts shivering and sits down with two other  
386 soldiers in front of the campfire. It is cold and they  
387 are huddled by a paltry little fire with light snow  
388 falling on them.

389 Period music continues throughout this sequence.

PRIVATE

390 From what I can see it looks  
391 like we are prepared to  
392 attack Yorktown in a few  
393 hours.  
394

T.T.

395 Where are we?  
396

PRIVATE

397 Where have you been? All the  
398 talk is that Washington is  
399

400 going to try to get us  
401 across the Delaware River  
402 tonight to surprise the  
403 Hessians at Yorktown.  
404 (sarcastic)  
405 What a less than perfect way  
406 to spend Christmas Eve, eh?

407 SOLDIER #1

408 Private! Why don't you just  
409 shut up and let the rest of  
410 us get some sleep! The dawn  
411 will get here soon enough.

412 PRIVATE

413 Hey man... if I want to talk  
414 off nervous energy that is  
415 my choice and not yours.

416 (to T.T.)

417 Are those the tiny fishing  
418 boats that are supposed to  
419 take us across the Delaware  
420 with that strong current  
421 and those ice floes?

422 Damn... if a boat capsizes  
423 or anyone falls overboard  
424 they will sink with their  
425 uniform and boots.

426 (beat)

427 I haven't seen my wife or  
428 family for two years and I  
429 am ready to desert, but for  
430 some reason I stay. I just  
431 want to get this damn war  
432 over with so I can go home  
433 without feeling guilty  
434 about leaving you heroes to  
435 do the job for me.

436 (beat)

437 My wife and I agreed before  
438 I volunteered that we are  
439 not going to take orders  
440 from anyone on how we live  
441 our lives. King George or  
442 anyone else will have to  
443 hang us before we give up  
444 the land and the freedom we  
445 have acquired since we left  
446 England.

447 T.T. does not know what to say and just nods his head  
448 and sits quietly as the other entire Revolutionary  
449 soldier drift off to sleep.

450 EXT. FIELD - LATER

451 Suddenly a yelling...

452 OFFICER (O.S.)  
453 Wake up, children! Time for  
454 a rowing exercise!

455 T.T. and PRIVATE get up slowly, gather their gear and  
456 shuffle towards the rowboats.

457 The scene FREEZES and the frame dwindles on the screen.  
458 Uplifting MUSIC rises to remind the audience that  
459 Yorktown turned the tide.

460 Also within the music, FX of SHOUTING and the MUSKET  
461 FIRE.

462 New MUSIC comes up -- War of 1812 period music.

463 A new FREEZE FRAME comes toward us. As it grows, the  
464 music dwindles. When the frame reaches full size, the  
465 action starts.

466 INT. SHIP - DAY

467 SUPER: "The War of 1812 was mainly for control of the  
468 Great Lakes."

469 T.T. is wide awake, surprised and shocked to find  
470 himself dressed in a sailor uniform under Captain  
471 Perry ready to engage the British on one of the Great  
472 Lakes battles.

473 T.T. turns to two other men, one dressed as ordinary  
474 seamen and the other an officer.

475 T.T.  
476 Hey fellas -- I am not sure  
477 why I am here or what I am  
478 supposed to be doing?

479 The officer is Private.

480 PRIVATE  
481 You must be the new  
482 replacement. Don't get  
483 smart with me, sailor! This  
484 is serious business! Just  
485 do your job! Now pick up  
486 that fire stick and on my  
487 command plunge it the fire  
488 hole!

489 T.T. finds himself holding the flaming stick, poised  
490 to touch the dry powder in the cannon on the officer's  
491 command.

492 PRIVATE

493 Fire in the hole!

494 T.T. automatically reacts by plunging the fire stick  
495 into the powder hole.

496 The cannon ROARS. Everyone stares out the cannon port  
497 except T.T.

498 The officer (Private) and two of the other sailors  
499 exhibit satisfaction over having hit the English ship  
500 at the waterline.

501 They are exuberant, while T.T. is not sure what to  
502 feel. He stands still, awkwardly.

503 After a short beat, a cannon BLAST from the English  
504 ship hits back at the American ship right into where  
505 our actors are standing.

506 In SLOW MOTION American sailors and the officer are  
507 blown off their feet in serious wounds and death. T.T.,  
508 who was off to the side, is aghast at the carnage.

509 The scene goes MOS. All three lie on the ground  
510 squirming and screaming in pain as T.T. tries to bind  
511 their wounds.

512 The scene FREEZES and the frame dwindles on the screen.

513 Accompanying is victorious MUSIC of the period.

514 SUPER: "Every war victory... no matter how small, or  
515 seemingly insignificant... has a human price to pay."

516 New MUSIC comes up -- "The Eyes Of Texas Are Upon You".

517 A new FREEZE FRAME comes toward us. As it grows, the  
518 music dwindles. When the frame reaches full size, the  
519 action starts.

520 EXT. ALAMO - DAY

521 SUPER: "The Alamo"

522 MUSIC plays continuously throughout this sequence.

523 T.T. finds himself standing on the wall of the Alamo.  
524 A loud rifle shot is fired right near his ear. He  
525 stumbles, grabs his ear, and shakes his head to clear  
526 it. He has no idea where he is, confused about how he  
527 arrived, or what is expected of him. He is dressed in

528 buckskin clothes... he just does not know exactly what  
529 to do or where to move.

530 Another Texan in military officer's clothes picks up  
531 a pistol from the hand of a dead Texan. He shoves it  
532 into T.T.'s hand.

533 Sound of RIFLES FIRING and English and Spanish  
534 shouting can be heard in the background.

535 TEXAN OFFICER  
536 Hey soldier... what is your  
537 problem? Start shooting!

538 T.T. instinctively takes aim and fires at an imaginary  
539 Mexican soldier. T.T. continues to stare at the  
540 wounded Mexican soldier.

541 Suddenly T.T. is hit by a bullet in his face, which  
542 causes him to falter.

543 A Mexican soldier arrives and bayonets T.T. in the  
544 stomach. He falls.

545 Additional Mexicans arrive -- they bayonet T.T. in the  
546 back and beat his head with the butts of their rifles.

547 The scene FREEZES and the frame dwindles on the screen.

548 Accompanying is respectful, dirge-like MUSIC of the  
549 period.

550 FADE TO  
551 BLACK.

552 An extra moment to commemorate the honored dead.

553 SUPER: "Those that died at the Alamo were all  
554 volunteers. They fought, as true warriors do, without  
555 regard for their own safety.

556 They fought for an ideal; the one America was founded  
557 upon --

558 the right to be free to choose, and not be told how  
559 to live by an aggressor or tyrant."

560 A moment more of BLACK, then...

561 New MUSIC comes up -- Civil War period MUSIC.

562 A new FREEZE FRAME comes toward us. As it grows, the  
563 music dwindles. When the frame reaches full size, the  
564 action starts.

565 EXT. BATTLEFIELD - DAY

566

SUPER: "The American Civil War"

567

Two Confederate soldiers lie on the ground with rifles ready to fire.

568

569

T.T. finds himself and a fellow Confederate soldier (Private) anticipating a charge from the Union line at Shenandoah.

570

571

572

PRIVATE

573

About when do you think the boys in blue will attack?

574

575

T.T.

576

Hey, I don't even know where we are or what battle we are in?

577

578

579

PRIVATE

580

We're holding the line at Shenandoah, fella. You must have been hit in the head in that last bombardment and lost your memory...

581

582

583

584

(beat)

585

586

Listen... if I don't survive the war, will you take a gift to my three year old son in Savannah?

587

588

589

590

T.T.

591

Hey man! What if I die and go straight to Heaven and you survive to eat army grub with all the worms mixed in?

592

593

594

595

PRIVATE

596

Hey... quit trying to be funny. I watched you fight hand-to-hand a week ago and you have something about you that the other men do not have. You seem to see danger coming and survive while others die all around you.

597

598

599

600

601

602

603

604

605

T.T.

606

(sobered)

607

Sorry man... Of course I will try to find your son and deliver the gift.

608

609

610

Private hands T.T. a flute whittled from an oak branch.

611 T.T. blows on the flute a short tune -- "Dixie".  
612 Smiles, sticks the flute in his backpack.

613 But T.T.'s still confused. He looks around, still  
614 trying to figure out how he arrived and where he is.

615 Suddenly, in a SLOW MOTION attack by a single Union  
616 soldier, PRIVATE is shot dead. T.T. has a bayonet fight  
617 on his hands.

618 T.T. is able to stab the Union soldier through the  
619 heart.

620 He stares at what he has done and almost drops his  
621 weapon in disgust. Then a SHOT is heard and T.T. spins  
622 with a leg wound and falls. A Union soldier runs up  
623 to him. poised to stick him with a bayonet --

624 T.T. raises his empty hand in defense. The Union  
625 soldier has his bayonet poised for the kill. He  
626 hesitates...

627 UNION SOLDIER  
628 Lay still, Rebel... pretend  
629 you're dead... we Northern  
630 boys don't go around  
631 killing men on the ground  
632 even if they are wearing  
633 Rebel gray...

634 The Union Soldier rushes past.

635 The scene FREEZES and the frame dwindles on the screen.

636 Accompanying is respectful MUSIC of the period.

637 SUPER: "Individual soldiers fight and kill under  
638 orders... or for an ideal. Americans are taught to help  
639 their neighbor... and even at such a dark time in  
640 American history, compassion overrides bloodlust and  
641 blind instinct."

642 Then... new MUSIC comes up -- WWI-era MUSIC.

643 A new FREEZE FRAME comes toward us. As it grows, the  
644 music dwindles. When the frame reaches full size, the  
645 action starts.

646 INT. TAVERN - DAY

647 SUPER: "The First World War, 1917"

648 Two American soldiers and a bartender stand in a  
649 tavern. T.T.

650 stands by the bar. Private is seated alone at a table.  
651 MUSIC continues throughout this sequence.

652 Speaking begins between all three men, but the  
653 audience can only see the pantomime of their physical  
654 motions to figure out what intense emotions are being  
655 exchanged or explained between the two of them.

656 Essentially, T.T. is trying to comfort PRIVATE who is  
657 ready to commit suicide from "guilt" because he  
658 survived the attack today while almost everyone else  
659 in his small company were killed along with almost all  
660 his entire regiment.

661 The two actors use their body motions to convey the  
662 following to the audience, in a "silent film"  
663 approach.

664 Both T.T. and PRIVATE have a pantomime of hand gestures  
665 and body language as the tavern keeper speaks up now  
666 and then in pantomime. They are talking about the  
667 battlefront activity today. It is obvious from the  
668 body language of T.T. that he is uncomfortable with  
669 finding himself in a World War 1 uniform in a strange  
670 tavern.

671 T.T. tries to sympathize with Private but he is going  
672 in two directions at once. T.T. would just as soon get  
673 out of the tavern and away from the deranged Private.  
674 However, T.T. can't just walk away from someone who  
675 is so distraught.

676 The hand motions of the bartender convey what  
677 questions he is asking Private about what Private has  
678 gone through this week.

679 Private, who is obviously slightly drunk, starts  
680 demonstrating how the signal flare went up and how they  
681 climbed out of the trenches. How the men to his right  
682 and left fell with machine gun bullets. How he was  
683 slightly hit in the shoulder but still ran forward.  
684 How he fell upon the barbed wire so the soldiers behind  
685 him could step on his back and jump forward.

686 The bartender continues asking him questions by hand  
687 and body motion about how much damage did they do to  
688 the Germans?

689 Private waves his arms and makes motions to explain  
690 how he missed the entire action because his clothes  
691 were stuck to the wire and was freed by his own troop's  
692 hours later.

693 Private pantomimes that he watched the members of his  
694 company (he points to the insignia on his sleeve) fall  
695 in front of him, the wounded all screaming. All he

696 knows is that his battalion started out with this many  
697 men (holding out his two arms about three feet apart)  
698 and only (narrowing the gap between his arms) "this  
699 many" returned. The bartender pours him another drink  
700 with a look of "understanding" and remorse.

701 T.T. reaches in his pocket to pay for the new drink  
702 and the bartender waves him off.

703 Suddenly Private puts his head in both hands and  
704 evidences in SLOW MOTION gross despair over visions  
705 of what he experienced that week. In the background  
706 we hear, very softly, CANNON SHELLS BURSTING and  
707 SCREAMING SOLDIERS to suggest what Private has  
708 experienced.

709 T.T. slides a chair nearer Private. T.T. tentatively  
710 tries to put his arm around Private. Private throws  
711 T.T.'s arm off his shoulder in an act of defiance.  
712 Private then starts pounding his fist on the table and  
713 hitting himself in the head because he survived and  
714 his comrades did not. Private then breaks the  
715 pantomime --

716 PRIVATE

717 Why did I survive when all  
718 my close friends died!?

719 T.T. again tries to put his arm around Private. This  
720 time it is received and Private curls up in the bosom  
721 of T.T. and sobs in an uncontrollable manner.

722 The scene FREEZES and the frame dwindles on the screen.

723 New MUSIC comes up -- WWII-era MUSIC.

724 A new FREEZE FRAME comes toward us. As it grows, the  
725 music dwindles. When the frame reaches full size, the  
726 action starts.

727 EXT. PHILIPPINES - JAPANESE PRISON CAMP - DAY

728 SUPER: "World War II"

729 PRIVATE and T.T. wander in a Japanese prison camp. They  
730 are dressed in tattered rags of US Army uniforms.  
731 Patriotic MUSIC continues throughout this sequence.

732 A uniformed Japanese guard stands menacingly nearby.

733 T.T. is dazed and uncomfortable -- both at his torn  
734 uniform and being behind barbed wire fencing. He has  
735 never been in a prison camp and staggers around  
736 aimlessly.

737

T.T. ends up alongside Private.

738

PRIVATE

739

It looks like the Japs are abandoning the camp. I heard from the locals that our forces have taken Guadalcanal, and Iwo Jima. That mean the Marines are probably headed here next.

After all the suffering we witnessed... the bayoneting of American prisoners just for sport, even the beheadings simply to show off Samurai skills... I can't imagine them just leaving without killing all of us, so we can't describe what atrocities we have had to endure.

781

782

T.T. who still does not know what to make of his being in this prison camp suddenly blurts out --

783

T.T.

784

785

Golf! I had a nine handicap myself. What was yours?

786 Private stares at him like he's crazy -- then bursts  
787 out laughing. A moment of sanity in an insane world...  
788 Suddenly a Japanese Officer and a foot soldier appear.

789 The hand motions of the officer suggest that the  
790 Japanese guard soldier is now being ordered by his  
791 superior to finish his assignment of killing all  
792 prisoners and to then go to his barracks to prepare  
793 for evacuation.

794 The Jap officer turns and walks away.

795 The Jap guard looks at both T.T. and Private. He aims  
796 his rifle at both. He turns his head to check to see  
797 if his superior officer is watching him from behind.  
798 He then fires his rifle twice into the air. He stares  
799 at both Americans, and then uses his rifle to motion  
800 them to fall to the ground.

801 T.T. and Private go prone on the ground and raise their  
802 hands and arm slightly and look the guard in the eye  
803 -- to say "thank you". The Japanese soldier snaps his  
804 chin down and then back up in recognition of their  
805 being humans and not animals. He then runs off to  
806 evacuate the camp.

807 The scene FREEZES and the frame dwindles on the screen.

808 New MUSIC comes up -- 60s-era ACID ROCK, PROTEST SONGS,  
809 and so forth. Really setting a tone...

810 A new FREEZE FRAME comes toward us. As it grows, the  
811 music grows as well. When the frame reaches full size,  
812 the action starts -- and the MUSIC COMES TO A  
813 SCREECHING HALT.

814 EXT. VIETNAM - DAY

815 SUPER: "Vietnam 1971"

816 American troops have just finished repelling the enemy  
817 with a vicious firefight at their fire base in the  
818 jungle.

819 Private, ragged and unshaven, is taking an open air  
820 shower, and talking to SOLDIER #2, showering in the  
821 next stall over.

822 PRIVATE  
823 I tell ya man, I'm just  
824 about losing my mind over  
825 the idea of being wounded  
826 and crippled for life over  
827 a war without a purpose! Why  
828 are we here in Vietnam? Is

829 it just to try out new  
830 weapons?

831 SOLDIER #2

832 I read an editorial in the  
833 New York Times suggesting  
834 that Vietnam was a nothing  
835 more than a weapons testing  
836 ground by both Russia and  
837 the US. The article said how  
838 neither Russia nor the US.  
839 ever intended either side  
840 to win. Russia needed a war  
841 to sell weapons so their  
842 economy wouldn't collapse.  
843 The US needed a place to  
844 give the US. Generals  
845 something to do besides  
846 play golf and to try out all  
847 the new weapons. Generals  
848 wanted to have troops with  
849 real experience so if there  
850 was a real war the US.  
851 Officers would be  
852 experienced -- experienced  
853 with all the new weapons now  
854 on the drawing board.

855 PRIVATE

856 If what you are saying is  
857 true then that get really  
858 gets me angry when I think  
859 that my body is going to get  
860 torn up or blown apart, all  
861 for the sake of money or new  
862 weapon experiments. All I  
863 want to do is get back to  
864 Colorado Springs and  
865 prepare for the downhill at  
866 the next Olympics.

867 (beat)

868 If what you say is true, all  
869 of us out here are little  
870 more than lab rats in a  
871 cage. Sitting out here at  
872 our firebase. A stationary  
873 target for Charlie to shoot  
874 at whenever he feels like  
875 it. We do not have anywhere  
876 to hide. This is super  
877 stupid since it is only a  
878 matter of time before we are  
879 killed off one at a time.

880 SOLDIER #2

881 Relax... the way I see it we  
882 warriors are already dead  
883 from the moment we fire our  
884 first round. It just a  
885 matter of time whether  
886 bullets or shrapnel tear  
887 our human costume apart. I  
888 had a Sunday school teacher  
889 who said we will all  
890 eventually lose our human  
891 costume and it goes back  
892 into the soil, but the  
893 invisible part of us that  
894 laughs and cries and can  
895 write and read can never  
896 die. She called it our  
897 invisible individual  
898 Consciousness. She  
899 convinced us that our  
900 invisible Consciousness  
901 can never die because it  
902 comes from THE BOSS  
903 HIMSELF, regardless of what  
904 name each tribe on Earth  
905 calls HIM. Some call HIM  
906 Allah, Buda, Confucius,  
907 God, Jehovah, and others,  
908 but they are just different  
909 names for the same "one and  
910 only" BOSSMAN that created  
911 us.

912 (beat)

913 Now... do I sound like an  
914 intellectual or do I sound  
915 like an intellectual?

916 PRIVATE

917 Who knows, maybe she is  
918 right. Maybe an instant  
919 after we take a bullet in  
920 the head we merely get a new  
921 human costume in the form of  
922 a newborn baby somewhere in  
923 the universe?

924 SOLDIER #2

925 Hey... maybe we will both be  
926 recycled and come back as  
927 little girl babies and grow  
928 up as female movie stars?

929 PRIVATE

930 I always thought you would  
931 look good in a dress and  
932 blouse.

933 Both men laugh --

934 SOLDIER (O.S.)  
935 Incoming!!!

936 In SLOW MOTION and silence Private and Soldier #3  
937 freeze for an instant, then dive to the ground. Naked  
938 and wet, they throw on their helmets and fire their  
939 guns into the jungle.

940 PROTEST MUSIC of the 70's now starts up again in the  
941 background.

942 EXT. VIETNAM - LATER

943 The firing ends. PRIVATE slumps against some sandbags,  
944 alone.

945 Now dressed, but like a wild man -- shabby outfit,  
946 covered with ornaments and souvenirs... no respect for  
947 the uniform.

948 Private sees a helicopter landing. From the helicopter  
949 comes T.T. Clean-shaven, clean uniform... confused as  
950 usual at having been thrown into this historic period.

951 He jogs from the helicopter to the camp. Private walks  
952 up to T.T.

953 as T.T. starts to try to make sense of his arrival.

954 T.T. recognizes the area as a firebase but he is  
955 hesitant in what to say or what to look for...and all  
956 the men stare at him.

957 Private looks at the stripes on T.T.'s uniform and  
958 recognizes that he is the new 1st Lieutenant in C  
959 Company.

960 T.T.  
961 Got a salute for me,  
962 Private?

963 Private gives him a "mocking" salute. T.T. takes  
964 little offense -- he was just stalling for time...

965 T.T.  
966 Alright, alright... who's  
967 your squad leader? This  
968 place is a disgrace. I'm the  
969 new 1st Lieutenant, and I --

970 PRIVATE  
971 All due respect sir... has  
972 anyone informed you of the

973 life span of a 1st  
974 Lieutenant at a forward  
975 firebase?

976 T.T. does not like the interruption, but holds his  
977 rebuke.

978 T.T.  
979 (caustic)  
980 OK, soldier... no, I  
981 haven't. Why don't you  
982 educate me?

983 PRIVATE  
984 It appears from our  
985 experience at this base  
986 camp that fifteen to twenty  
987 minutes is the maximum,  
988 once Charlie starts sending  
989 in mortars. They can see us  
990 -- we can't see them. I am  
991 available to offer my  
992 babysitting services if the  
993 Lieutenant is open to such  
994 a suggestion?

995 Laughter is heard in the background. T.T. maintains  
996 his composure. Insubordination is familiar; he can  
997 deal with that...

998 T.T.  
999 Are you trying to tell me  
1000 that you are offering a post  
1001 graduate course in officer  
1002 training... Private?

1003 PRIVATE  
1004 No offense meant sir, but  
1005 you are the fourth 1st  
1006 Lieutenant to arrive in the  
1007 past nine weeks and it would  
1008 be to everyone's advantage  
1009 if you survived for a least  
1010 a month.

1011 T.T.  
1012 Your views are noted,  
1013 Private, and I will give  
1014 them my attention after  
1015 inspecting the compound to  
1016 see why some of you soldiers  
1017 are dressed more like  
1018 homeless people or beach  
1019 bums than soldiers...

1020 A murmur of mock offense and confrontation from the  
1021 soldiers in the background.

1022 Both Private and the 1st Lieutenant T.T. turn their  
1023 heads to the source of the other soldiers' mocking  
1024 sounds, then return to face each other for a few tense  
1025 moments.

1026 SOLDIER (O.S.)  
1027 Incoming!

1028 In SLOW MOTION the two bump into each other as they  
1029 scramble for a place to hide. T.T. is slow to react  
1030 since he is brand new.

1031 Private is already on the ground from experience.  
1032 Private crawls on all fours -- tackles T.T.'s legs and  
1033 knocks him down and scrambles on top of him to protect  
1034 him. The sound of two EXPLOSIONS... then things quiet  
1035 down. Both unharmed men relax and give each other a  
1036 pat on the shoulder as Private starts to climb off of  
1037 T.T. and stands up. Then Private offers T.T. a hand  
1038 to get up. T.T. is clearly impressed by Private's  
1039 valorous actions.

1040 T.T. stands up. He nods at Private.

1041 T.T.  
1042 Thanks for the last minute  
1043 coverage.

1044 Private nods back.

1045 PRIVATE  
1046 We are all in this rotten  
1047 mess together.  
1048 (beat)  
1049 We also have to be careful  
1050 not to be seen meeting on  
1051 the ground like this... it  
1052 could start a rumor.

1053 T.T.  
1054 The kind of military  
1055 cover-up you just showed  
1056 me, I can live with.

1057 Both men flip their heads back and laugh.

1058 Private stands up and stretches his back. T.T. bends  
1059 down to put a piece of equipment back upright.

1060 SOLDIER (O.S.)  
1061 Incoming!!

1062 Private tries to spin and dive but the explosion occurs  
1063 too close. In SLOW MOTION, Private is blown through  
1064 the air and across the bunker.

1065 T.T., who was bent over and shielded from the incoming  
1066 mortar, crawls over to Private. Sees he is gravely  
1067 wounded, probably dying.

1068 T.T. is in shock and tries to shake off the effects  
1069 of the shelling. In the background, soldiers yell and  
1070 shout commands.

1071 Return fire goes out in all directions.

1072 T.T. picks up the Private's automatic weapon and  
1073 crawls to the top of the bunker and starts firing.

1074 The scene FREEZES and the frame dwindles on the screen.

1075 New MUSIC comes up -- hip pop circa 2010.

1076 A new FREEZE FRAME comes toward us. As it grows, the  
1077 music dwindles. When the frame reaches full size, the  
1078 action starts.

1079 INT. IRAQ - BARRACKS - DAY

1080 SUPER: "Iraq, 2010. Dawn."

1081 We hear modern day background MUSIC and NEWS on a radio  
1082 nearby as if from a present day disc jockey. T.T. and  
1083 PRIVATE are getting dressed. It is a normal morning.

1084 T.T. is shaking his head with confusion.

1085 T.T.  
1086 I'll tell ya... I had a less  
1087 than peaceful night. I  
1088 dreamed I was a soldier in  
1089 more or less all the wars  
1090 the US has been involved in!

1091 PRIVATE  
1092 (laughs)  
1093 I had a less than peaceful  
1094 night myself. I dreamed I  
1095 was with my Iraqi lady  
1096 friend, the one I'm gonna  
1097 see tomorrow night on  
1098 leave. Guess I'm workin'  
1099 out my moves, because I plan  
1100 on keeping her awake all  
1101 night.

1102 Private makes a humping action with his hips. T.T.  
1103 shrugs.

1104 T.T.  
1105 Dreams are funny things.  
1106 Aren't they?

1107 T.T. picks up his back pack, but trips on the leg of  
1108 cot he was sleeping on and lands on the floor.

1109 Scattered applause from the other men.

1110 PRIVATE  
1111 All hail the invincible  
1112 warrior! Died tripping on  
1113 his own pack!

1114 T.T. gives Private the finger. He slowly picks up the  
1115 back pack.

1116 As he stands up, a flute falls out of the back pack  
1117 onto the floor.

1118 THE OAK-CARVED FLUTE FROM THE CIVIL WAR SEQUENCE.

1119 T.T. can't believe what he is seeing. He slowly picks  
1120 it up and touches it to his lips -- blows the same tune  
1121 ("Dixie") that he blew in the Civil War dream.

1122 He then sits down on his bed in a state of confusion  
1123 and disbelief.

1124 T.T.  
1125 (to himself)  
1126 What is going on?

1127 A bugle is heard in the background.

1128 PRIVATE  
1129 I'm goin' to get some  
1130 breakfast.

1131 He stands up to walk away.

1132 T.T.  
1133 I'll be along in a minute...

1134 He continues to sit on his bed, mesmerized by the flute  
1135 in his hand. Private stares at him, wondering at his  
1136 unusual behavior.

1137 Then walks off...

1138 SOLDIER (O.S.)  
1139 Incoming!!

1140 An EXPLOSION sounds nearby. Both men start to dive to  
1141 the ground.

1142 T.T. safely lands on the ground as he merely had to  
1143 roll off the bed.

1144 Private, who was just about to exit the tent, is slow  
1145 to dive from his standing position -- and is hit by  
1146 shrapnel.

1147 T.T. shakes off the trauma of the explosion and crawls  
1148 over to Private's bloody body.

1149 T.T.  
1150 Medic! Medic!  
1151 (to Private)  
1152 Hang on buddy... we will get  
1153 you through this...

1154 Private looks real bad. He coughs up blood, and then  
1155 speaks in a whistling voice...

1156 PRIVATE  
1157 Hey man... if I don't make  
1158 it can you contact my  
1159 divorced wife in Savannah?  
1160 I have a three-year-old  
1161 son... maybe you can tell  
1162 him that the last thing that  
1163 Daddy thought about was  
1164 him.

1165 T.T.  
1166 Yes. Of course.

1167 PRIVATE  
1168 Oh, and by the way... this  
1169 is real important --  
1170 (beat)  
1171 You're a lousy flute  
1172 player.

1173 T.T. laughs.

1174 T.T.  
1175 Tell ya what... I'll give  
1176 the flute to your boy. I  
1177 will tell him it's a gift  
1178 from his daddy.

1179 T.T. suddenly realizes -- this is just like the Civil  
1180 War dream... Tears roll down his cheeks.

1181 T.T.

1182 Listen, man -- you just hang  
1183 on, alright? You can  
1184 deliver it yourself.  
1185 (yells)  
1186 Medic! Medic, I got wounded  
1187 here!

1188 PRIVATE  
1189 I don't think I'm gonna...  
1190 make it...

1191 He appears to die.

1192 T.T.  
1193 Will it never end!!!

1194 T.T. appears to be going out of his mind with grief  
1195 -- over the stupidity, the waste -- losing his buddy  
1196 Private, who's been with him now through so many of  
1197 the daily conflicts... The scene FREEZES and the frame  
1198 slowly dwindles on the screen.

1199 We can hear a MILITARY FUNERAL CEREMONY... a 21-GUN  
1200 SALUTE... New MUSIC comes up -- ultra-modern disco.

1201 A new FREEZE FRAME comes toward us. As it grows, the  
1202 music dwindles. When the frame reaches full size, the  
1203 action starts.

1204 EXT. RESTAURANT - DAY

1205 SUPER: "Washington, DC 2017"

1206 T.T. is in a restaurant, waiting for someone. He is  
1207 dressed in a three-piece dark suit with a monogrammed  
1208 white shirt, gold cufflinks, and a plain red tie. The  
1209 music is gone and only background restaurant sounds  
1210 are heard.

1211 PRIVATE (O.S.)  
1212 Oh captain, my captain?

1213 T.T. looks up. Standing behind him with a smirk on his  
1214 face... the Private that our Time Traveler thought had  
1215 died on his way to breakfast many years earlier.

1216 They embrace and sit down without saying a word.

1217 T.T.  
1218 Should we order now and then  
1219 talk about memories? Or get  
1220 cold chills talking about  
1221 the past now and then hope  
1222 we can keep down what we  
1223 eat?

1224 PRIVATE  
1225 Let's just order and let  
1226 everything flow.

1227 T.T.  
1228 OK.

1229 PRIVATE  
1230 (sarcastically)  
1231 You're looking good, for an  
1232 "older gentleman".

1233 T.T.  
1234 Private... no matter how  
1235 you try to butter me up,  
1236 you're still going to have  
1237 to pay your share of the  
1238 check.

1239 PRIVATE  
1240 Ah, "Captain, my  
1241 Captain"... you really know  
1242 how to hurt a guy. How about  
1243 you paying the bill and I'll  
1244 leave the tip?

1245 T.T.  
1246 Private... I heard that the  
1247 only tip you ever gave a  
1248 waitress was "early to bed  
1249 and early to rise... makes  
1250 you healthy, wealthy and  
1251 wise..." But you forgot to  
1252 tell the waitress that you  
1253 left out two words after the  
1254 word "bed"... "with me"!

1255 Private points a finger at T.T.

1256 PRIVATE  
1257 (sings)  
1258 Those were the days my  
1259 friend... we thought they  
1260 would never end...

1261 T.T. and Private both burst out laughing and then  
1262 quickly go silent... as if neither wants to remember  
1263 anything of those terrifying times. After a beat --

1264 PRIVATE  
1265 Do you have the  
1266 flashbacks... same as I do?

1267 T.T.  
1268 They never end. They show up  
1269 in the middle of a business

1270 meeting or a game of tennis  
1271 or golf. I can deal with it  
1272 but whoever is with me  
1273 notices that I am  
1274 suddenly... "not there".  
1275 How about you?

PRIVATE

1276 All I remember is leaving  
1277 the tent to go to  
1278 breakfast... then I woke up  
1279 in base camp hospital with  
1280 more bandages than  
1281 Frankenstein. I have some  
1282 vague memory of you holding  
1283 me in your arms and shouting  
1284 "Medic!", but I was out  
1285 until I woke up a month  
1286 later with a uniquely  
1287 beautiful  
1288 two-hundred-fifty pound  
1289 female nurse changing my  
1290 bed pan. I always was a  
1291 "ladies man". They must  
1292 hire these gals out of some  
1293 weight lifting class. Their  
1294 arms are bigger than my  
1295 thighs! But I grew to  
1296 appreciate their  
1297 tenderness and gentleness  
1298 for almost a full year of  
1299 helping me to get back the  
1300 use of my arms and legs.  
1301

T.T.

1302 I thought you were dead. I  
1303 felt guilty about that for  
1304 a long time... you really  
1305 made my day when you found  
1306 me and called. How did you  
1307 track me down?  
1308

PRIVATE

1309 Hey fella -- newly-elected  
1310 senators in D.C. are public  
1311 property!  
1312 (beat)  
1313 We had respect for each

T.T.

Sounds good to me. Both of us could probably do without the ugly stuff of the past. But maybe we will stay in touch?

PRIVATE

That sounds great. But we may be asked to return to active duty, from what I read about this Muslim thing.

T.T.

Right. Fortunately, there are a few of us in the Senate that are trying to get legislation through to soften the impact. Most of the senators are not willing to commit until they have a better sense of what their constituents will tolerate... so they don't lose any votes.

PRIVATE

So what is happening?

T.T.

Two things are already coming up for vote. We have a bill being drafted to change the status of the Muslim religion here in the US to that of a political party, rather than a religious sect or church. The official logic is the distinction between the word "unselfishness" and "selfishness". All the other churches except Islam preach "do unto others as you would have them to do unto you". Islam preaches the exact opposite. It is either their way or no way. This interprets to 100% Selfishness.

(beat)

Examples of the ugly parts that are showing up are Dearborn, Michigan, and

1373 small Communities in  
1374 Tennessee and other  
1375 locations. Muslims  
1376 essentially own the entire  
1377 cities and have voted their  
1378 own people into office. The  
1379 FBI expects to have a great  
1380 deal of legal interference  
1381 to searching for bomb  
1382 factories in their Mosques  
1383 or underground tunnels that  
1384 connect one home to another  
1385 unless the religious  
1386 protection is removed.  
1387 Remember all that stuff I  
1388 told you about what those  
1389 two Muslims told me at the  
1390 restaurant in Iraq?  
1391 Essentially, 98% of all  
1392 Muslims want to have peace  
1393 and prosperity, but the  
1394 other 2% want to kill anyone  
1395 and everyone who stands in  
1396 their way of free food,  
1397 unlimited free sex and free  
1398 shelter. It is becoming  
1399 more and more evident that  
1400 we Americans are going to be  
1401 under physical attack and  
1402 we can't physically  
1403 identify the enemy when  
1404 "hit and run" explosions  
1405 occur at the neighborhood  
1406 Mall. We hope that somehow  
1407 American Muslims start  
1408 giving information to the  
1409 local authorities on who  
1410 the bad guys are.  
1411 Sometimes, it is going to be  
1412 their own kids who are in  
1413 the crowds at the Mall or  
1414 the sports stadium when the  
1415 bombs go off. Political  
1416 parties in America are  
1417 entitled to argue "their  
1418 way or no way". However, it  
1419 does not make sense for your  
1420 tax dollars and mine be used  
1421 to support any political  
1422 group as being entitled to  
1423 religious exemptions when  
1424 they openly declare that  
1425 they intend to kill anyone  
1426 who wants to have Personal  
1427 Choice as to how they

1428 worship. Once they  
1429 politically take over any  
1430 Community they will  
1431 logically then want to  
1432 legally vote Islamic Law  
1433 into their local ordinances  
1434 and who knows what havoc  
1435 that will impose on the  
1436 police. On top of that they  
1437 will only have Muslims on  
1438 their local police force.  
1439 It is not unreasonable to  
1440 picture ten years from now  
1441 the Michigan National Guard  
1442 having to fire fight from  
1443 house to house to regain  
1444 control in both of those  
1445 cities. Then twenty years  
1446 from now it is no longer  
1447 just two towns or cities,  
1448 but fifty pockets  
1449 throughout the US of a  
1450 highly trained, Arab  
1451 financed and dedicated  
1452 invisible Army. They can  
1453 then threaten to blow up  
1454 multiple soft targets in  
1455 the U.S. unless their  
1456 Muslim Law is allowed to  
1457 replace our Constitution or  
1458 our Bill of Rights in the  
1459 cities they control. Our  
1460 politicians will not know  
1461 what to do and so they will  
1462 take the easy way the same  
1463 as France or Denmark. Our  
1464 politicians will "give in"  
1465 into having a separate  
1466 Islamic Nation within the  
1467 U.S. that can repeatedly  
1468 terrorize Washington with  
1469 threats of "their way or no  
1470 way". No matter how you  
1471 figure it they have so, so  
1472 much oil money to buy our  
1473 elected leaders in  
1474 Washington and finance  
1475 invisible Muslim Army of  
1476 Muslim welfare recipients  
1477 on food stamps to use "hit  
1478 and run" attacks on their  
1479 time table and agenda.  
1480 Remember,...they teach  
1481 their young people that if  
1482 they kill non-Muslims they

1483 will go to Heaven and have  
1484 free sex with Virgin young  
1485 girls as their reward. It is  
1486 an honor amongst their  
1487 family for them to blow  
1488 themselves up in a crowded  
1489 shopping mall. Currently  
1490 Japan won't even allow a  
1491 Muslim to own or rent a  
1492 house in their Country.  
1493 They can visit, but they  
1494 can't stay.

1495 (beat)

1496 Secondly, we are working  
1497 behind the scenes to feel  
1498 out having the United  
1499 Nations ask China to send in  
1500 five million plus military  
1501 troops on a peacekeeping  
1502 mission to every county in  
1503 the Middle East and Africa  
1504 that is having civil  
1505 strife. We are thinking  
1506 that China might like to  
1507 have the role of enforcing  
1508 civil law for the next  
1509 hundred years as the  
1510 world's policeman -- in  
1511 exchange for all the  
1512 mineral and agricultural  
1513 rights in each country they  
1514 occupy. The locals who own  
1515 gas or oil deposits can keep  
1516 their control of those two  
1517 industries. After five  
1518 years of investments by  
1519 China into rebuilding the  
1520 nation's infrastructure,  
1521 the local government would  
1522 receive ten percent of the  
1523 gross sales or twenty  
1524 percent of the net sales  
1525 dollars China receives.  
1526 This would then provide  
1527 additional money for the  
1528 country they occupy to  
1529 build a financial  
1530 infrastructure. Any  
1531 citizen of that country who  
1532 protests the presence of  
1533 the new "Cops on the Corner"  
1534 in a defiant or vicious  
1535 manner could be executed on  
1536 the spot by the  
1537 peacekeepers. We figure

1538 that after a hundred years  
1539 the Muslims and all the  
1540 other groups will have  
1541 prosperity to such a degree  
1542 that Home Depot or Costco  
1543 will be just ordinary  
1544 retail stores and religious  
1545 difference will be a thing  
1546 of the past.

1547 PRIVATE  
1548 Wow! I wonder if this is why  
1549 I have been invited here to  
1550 DC?

1551 T.T.  
1552 Explain?

1553 PRIVATE  
1554 My growing business back  
1555 home is rubber goods.

1556 T.T.  
1557 (joking)  
1558 You mean you figured out how  
1559 make a condom that does  
1560 things that current ones  
1561 don't?

1562 PRIVATE  
1563 Very funny. No, no, no...  
1564 besides other products, we  
1565 make rubber bullets for  
1566 riot guns.  
1567 (beat)  
1568 I'll bet that is what my  
1569 meeting tomorrow is going  
1570 to be all about.

1571 T.T.  
1572 What's so special about  
1573 your product?

1574 PRIVATE  
1575 We were asked to take our  
1576 solid rubber bullets and  
1577 change the blunt end into a  
1578 sharp rubber point that  
1579 could pierce the skin of  
1580 whoever it hit. It would  
1581 enter the skin maybe an  
1582 eighth, or a quarter of an  
1583 inch. Then the GSA specs  
1584 said to design the sharp  
1585 point to slide backwards

1586 from the impact to collapse  
1587 a bubble of fluid encased in  
1588 the rubber just behind the  
1589 sharp point. The net result  
1590 is that the fluid in the  
1591 bubble would then squirt  
1592 forward and a drop or two  
1593 might enter the human body  
1594 at the point of the wound.

1595 T.T.  
1596 Wow! I hadn't heard about  
1597 what you just said, but from  
1598 what you are saying I can  
1599 now see why all the talk  
1600 about our latest and  
1601 greatest new defensive  
1602 military weapon in the  
1603 fight against ISIS and  
1604 other terrorists. It could  
1605 be as simple as pig's blood  
1606 diluted with water. Would  
1607 you want to hear some  
1608 background on this subject?

1609 PRIVATE  
1610 OK... so long as it isn't  
1611 the story about the three  
1612 little pigs and the huffing  
1613 and puffing wolf.

1614 T.T.

1615 PRIVATE  
1616 Hey man this is a true story  
1617 and not just a rumor.  
1618 (beat)  
1619 The story goes that  
1620 somewhere around 1916 Major  
1621 General "Black Jack"  
1622 Pershing of the US Army had  
1623 to deal with Muslim  
1624 terrorists in the  
1625 Philippines attacking the  
1626 US military installation in  
1627 Manila. He knew that merely  
1628 executing the terrorists  
1629 would just produce more  
1630 next generation  
1631 terrorists. He knew that  
1632 the only thing a Muslim  
1633 fears in the entire human  
1634 experience is to not be able  
1635 enter heaven if any pig  
1636 grease or blood enters his

1637 body. Even a rumor of an  
1638 individual Muslim getting  
1639 contaminated with any part  
1640 of a pig means that his or  
1641 her family shuns them, they  
1642 are not allowed in the  
1643 Mosques, and for sure that  
1644 individual will never go to  
1645 heaven and have free sex and  
1646 free food for eternity.  
1647 Good ole Jack scared the  
1648 captured terrorist by  
1649 showing them and the  
1650 audience that each  
1651 execution bullet to be  
1652 fired was dipped in pig's  
1653 blood or pork grease. All  
1654 forty terrorists were  
1655 executed. For fifty years  
1656 after that there was not a  
1657 single terrorist act in  
1658 Manila.  
1659 Now all of what I have been  
1660 asked to design makes  
1661 sense. If what you say it  
1662 true, then using a bullhorn  
1663 to warn thirty thousand  
1664 Muslim sit-in protestors in  
1665 New York to leave Fifth  
1666 Avenue or be wounded could  
1667 become a reality.

1668 T.T.  
1669 From what I hear, New York  
1670 has already taken  
1671 precautions for that.  
1672 Instead of using water  
1673 cannons to clear the  
1674 street, there is talk about  
1675 trying to clear the streets  
1676 without injuring anyone.

1677 PRIVATE  
1678 Now don't tell me you are  
1679 going to drop plastic bags  
1680 of diluted pig's blood from  
1681 a bomber and hope they  
1682 splash into someone's  
1683 mouth?

1684 T.T.  
1685 From what I hear, they're  
1686 designing their water  
1687 cannons to spray a fine mix  
1688 of genuine freeze-dried

1689 pig's blood or bacon grease  
1690 and warm water into the air  
1691 above the protestors. When  
1692 they breathe in they will  
1693 contaminate their own  
1694 bodies and never get to  
1695 heaven.

1696 PRIVATE  
1697 So what happens when all  
1698 thirty thousand sit-in  
1699 protestors show up with gas  
1700 masks to keep that from  
1701 happening?

1702 T.T.  
1703 That is where you come in,  
1704 with your rubber bullets,  
1705 and the pig's blood only  
1706 squirting out when it hits  
1707 a protestor's body.

1708 PRIVATE  
1709 My gosh... we could design  
1710 our bullets for machine  
1711 guns and shoot at the  
1712 protestors' feet. I know I  
1713 am sounding silly, but  
1714 picture thirty thousand  
1715 Muslims having to show up in  
1716 Iron Man costumes if they  
1717 want to protect their place  
1718 in Heaven. That would  
1719 surely tell the world that  
1720 this pig's blood thing is  
1721 something Muslims fear and  
1722 not just a rumor...

1723 (beat)  
1724 Hey, Lieutenant, I just  
1725 thought of something. What  
1726 if I manufactured a  
1727 two-ounce rubber squirt  
1728 bottle, like the one in the  
1729 medicine cabinet at home  
1730 for cleaning wax out of your  
1731 ear? It could have a third  
1732 of an ounce of freeze-dried  
1733 pig's blood or freeze-dried  
1734 bacon grease in it that only  
1735 had to mix with an ounce or  
1736 so of water. Then every  
1737 non-Muslim in the world  
1738 could have an effective  
1739 defensive weapon to squirt  
1740 in the face of a Muslim

1741 terrorist who might want to  
1742 hurt their family.

1743 T.T. and Private both laugh over the joke by Private.

1744 T.T.  
1745 Hey man... I have a good  
1746 feeling that you and I were  
1747 meant to meet today and  
1748 accomplish something for  
1749 the future. I could see all  
1750 the moms and dads in the  
1751 entire world being able to  
1752 sleep better knowing that  
1753 they could carry something  
1754 in their pocket to squirt at  
1755 a terrorist to protect  
1756 their kids.

1757 T.T. and Private again laugh at the ridiculous  
1758 suggestion.

1759 PRIVATE  
1760 (checks watch)  
1761 Time for visiting is  
1762 running out. I have my first  
1763 appointment on the hill in  
1764 eighteen minutes with some  
1765 guys from the GSA. But you  
1766 mentioned something "tax  
1767 advantages" earlier? Give  
1768 me a quick two-minute  
1769 summary so I can sound  
1770 "informed" when I have my  
1771 meeting this afternoon.

1772 T.T.  
1773 The bottom line of tax  
1774 evasion is that many  
1775 hometown Muslims in your  
1776 own neighborhood have  
1777 ordinary jobs, but do not  
1778 have to pay any income  
1779 taxes, and --

1780 PRIVATE  
1781 Wow... that whole concept  
1782 of terrorizing us on our own  
1783 turf is too much for me at  
1784 the moment! However,  
1785 avoiding income taxes at my  
1786 expense really aggravates  
1787 me! I might want to grow a  
1788 beard, start walking around  
1789 in a robe and get some

1790 much-needed exercise,  
1791 kneeling down and getting  
1792 up ten times a day?

1793 T.T.  
1794 It is a legal technique that  
1795 several minority  
1796 politicians and one sports  
1797 hero in the boxing world  
1798 used for years to avoid  
1799 paying income taxes. As a  
1800 wage earner, all you do is  
1801 join a recognized church or  
1802 religion. Any member of the  
1803 church can then be raised to  
1804 rank of Leader or Bishop or  
1805 whatever. In the case of  
1806 Muslim wage earners, that  
1807 individual can decide to  
1808 become a Minister or  
1809 whatever for the particular  
1810 Mosque they identify with.  
1811 Then as a Disciple or  
1812 authority figure of that  
1813 Mosque they can donate  
1814 "most" all their W-2 or 1099  
1815 wages to the Mosque. They  
1816 can then deduct that amount  
1817 from their income taxes.  
1818 The Mosque can then pay all  
1819 the Disciple's mortgages,  
1820 car payments, and other  
1821 fixed expenses for them  
1822 without having those funds  
1823 be labeled as income to the  
1824 wage earner.

1825 PRIVATE  
1826 That sounds almost as good  
1827 as the welfare benefits to  
1828 Illegals or boat people  
1829 from the Caribbean!

1830  
1831 (beat)

1832  
1833 Got to run now. Let's plan  
1834 on getting together to talk  
1835 more of this in the future.

1836 Private Hesitates physically

1837 PRIVATE  
1838 Hey, Lieutenant...I just  
1839 happen to think. If the

1840 Muslims hear about all  
1841 these plans won't that  
1842 precipitate a lot of anger?  
1843 Maybe the ISIS "hot heads"  
1844 in the US will  
1845 independently blow up one  
1846 or two shopping Malls in  
1847 retaliation?

1848 T.T.  
1849 Good thinking Private.  
1850 That is just what we  
1851 anticipate will happen. We  
1852 think this will give the FBI  
1853 the greatest advantage to  
1854 prevent any explosions  
1855 because it will be a rash  
1856 and emotional act that is  
1857 not well planned. Because  
1858 of that lack of planning the  
1859 Terrorist might make  
1860 emotional mistakes and they  
1861 can be taken down before  
1862 they blow up innocent  
1863 shoppers. Right now ISIS  
1864 is laying low and trying to  
1865 build a national  
1866 organization or Army of  
1867 ISIS with U.S. citizens.  
1868 The rumor is that they are  
1869 hoping to train 10,000 U.S.  
1870 terrorist in 100 U.S.  
1871 cities operating out of  
1872 Dearborn Michigan. It  
1873 could take them 10 years to  
1874 put it all together. Image  
1875 how helpless our Congress  
1876 or National Guard would be  
1877 in the face of that kind of  
1878 internal threat.

1879  
1880 If we appease the Terrorist  
1881 now by doing NOTHING (T.T.  
1882 raises his voice on the work  
1883 nothing) it will be the same  
1884 as having a diagnose of  
1885 Cancer in your colon and not  
1886 treating it early.

1887  
1888 The Terrorist could become  
1889 so strong that the FBI is  
1890 overwhelmed with domestic

1891 violence. Then the Liberals  
1892 will be the first to  
1893 complain that the FBI is not  
1894 protecting their kids from  
1895 being blown up at the local  
1896 shopping Malls.

1897 PRIVATE  
1898 Hey Lieutenant keep your  
1899 voice down. Everyone is  
1900 looking at you. Let's have  
1901 another update visit in a  
1902 year or two. Maybe things  
1903 will be better and we can  
1904 talk about golf, sex and  
1905 food..., not necessarily in  
1906 that order.

1907

1908 T.T. and Private both laugh and say hoo-rah in military fashion  
1909 and reach out to give a "high five" to each other. The concept  
1910 with this ending is to give HOPE to the audience before they leave  
1911 the theatre.

1912 Both hold up their water glasses as if in a toast to the future.  
1913 The scene freezes and gradually starts to drift smaller and  
1914 smaller into the blue background from which it originally came.

1915 At the same time the music from many of the patriotic songs gets  
1916 louder and louder. When the frozen scene gets extremely small  
1917 -- the music abruptly ends -- and we...

1918 Fade to black.

1919 The end
